## Transformative Participatory Processes and Governance Transitions Towards Small-scale Fisheries Co-management

Over the past decade, small-scale fisheries in Uruguay have been undergoing a governance transition from top-down management towards co-management, involving the creation of consultative councils composed of fishers and government actors. In this talk, Micaela Trimble will explore the challenges of this bumpy process as well as some multistakeholder participatory processes with transformative potential for the viability of the sector.

# V2V THEMATIC WEBINAR SERIES 2022

### Speaker:

**Dr. Micaela Trimble**

Dr. Micaela Trimble is an Associate Researcher at the South American Institute for Resilience and Sustainability Studies (SARAS), Uruguay. She holds a PhD in Natural Resources and Environmental Management from the University of Manitoba (2013). Her areas of expertise include environmental governance, stakeholder participation, and adaptive co-management of social-ecological systems (e.g. small-scale fisheries, marine protected areas, watersheds), with a geographic focus on South America.
